To Whom It May Concern:

Because I was impressed with the projects showcased on Freyenhagen Construction's website, I contacted Jeremy about finishing the basement in my home.

I found that it was easy working with Freyenhagen Construction. The overall experience was trouble free and the project was well done!

I was especially impressed with Dave, the carpenter who handled the job. With each step of the project, he explained what he was doing and how long it would take to complete. He made some very constructive suggestions that we felt were more appropriate for our project. We modified our original plans and are very pleased with the results.

From quote to work completion, the project was well laid out. The workers were efficient and professional. Jeremy took the time to ensure that the project progressed as promised.

I would recommend Freyenhagen Construction to anyone with a remodeling project.

Sincerely,

Tom Blansett
