

Dear Jeremy and crew,

Bob and I are very pleased with the basement remodel you did for us. One of the services I like best about your company is that you provided many design ideas that helped us visualize better solutions to our problems. Putting our laundry room in a closet was something I never would have thought of and it has worked very well for us. In addition, when I thought things needed to be changed, such as devoting the entire bedroom closet to the laundry, it was implemented immediately.

Jeremy, you kept in touch on a regular basis and the things we discussed were always taken care of. Your employees also were excellent about conveying to you any questions and requests. Your mailbox system seems to work well.

Everyone who worked on our project was friendly, courteous and anxious to please. The workmanship was excellent. I would recommend Freyenhagen to anyone looking for design and construction services.

Carolyn and Bob Jones
