To Whom It May Concern:

Because Jeremy had previously remodeled a bathroom for us, which turned out beautifully, we called him when we made the decision to remodel our kitchen.

Jeremy provided us with various design choices based on what could or could not be done due to the basic design of our home.

We were extremely pleased with the end result. The remodel was accomplished within the agreed upon time frame and the craftsmanship was superior. Jeremy and his workers are great people to work with.

We felt that Jeremy always had our best interests in mind. When we had a concern about the electrical outlets in the dining room, he took care of the problem for us without question. The customer service was superior. We especially appreciated the planning book Jeremy gave us at the beginning of the project.

Jeremy, his carpenters and office staff were always available and helpful to us. The lines of communication were always open to us. The work quality was excellent, the staff was professional, and our home was left very neat each day.

We would recommend Freyenhagen Construction to anyone who is considering a remodeling project.

Sincerely,

Bill & Sharon Dimich
