

Jeremy & Crew —

Jim and I just want to let you know how pleased we are with the end result of our basement remodel.

We are especially pleased with your promptness in correcting the problems involving the copper pipes to our hot water heating system. You and your crew were punctual and pleasant to work with; we thank you for your professional operation in resolving the situation as soon as possible.

We look forward to working with Freyenhagen Construction when we remodel again.

Sincerely,
Jim & Sheila Towns
