To Whom It May Concern:

When it came time to remodel, we chose Freyenhagen Construction because of the great recommendations we were given by friends. It was important to us to have skilled workers in our home who were also nice to be around. We quickly realized for ourselves that the Freyenhagen team and subs are simply the best. The workers arrived on time, in a good mood and ready to work! If they said they were going to do something, they did it on schedule and in a helpful and courteous manner AND they cleaned up at the end of the work day. We received fabulous service.

Prior to construction, the pre-planning, design development and budgeting period of the project was very helpful and allowed opportunities for changes prior to work starting. We were given a clear picture of the design and overall cost, which definitely helped to reduce change orders. Although our home was well designed and built, there are always issues that tend to arise during the remodel of an older home. Jeremy and Scott were very helpful providing suggestions for the optimal use of space. Once the remodel was underway, we could easily access the online calendar so we always knew who was going to be working in the house and for how long.

The Freyenhagen team consists of absolute professionals with high work ethics. Every one of them paid attention to details and the appearance of the final product, ultimately exceeding our expectations. We would ABSOLUTELY recommend Freyenhagen Construction without hesitation.

Sincerely,

Paul and Dona Hagen
