

4/5/99

Freyenhagen Construction completed the majority of our kitchen remodel while we were on vacation in Australia. We met with Jeremy several times during the planning stages. We were impressed with his sound advice and eye for detail. It was with complete confidence that we handed over the house keys to Jeremy. In our 3 week absence, Jeremy and his crew transformed our kitchen, solving all problems without our input. (He even took care of our hermit crabs!) We have been showing off our beautiful kitchen with great pride, and enthusiastically recommend Freyenhagen Construction
