My experience with Freyhagan Construction was nothing but professional and positive. From the first meeting through to completion of our remodel project, I was pleased with the level of attention, professionalism, and quality. Jeremy Freyhagan demonstrates a 'can do' attitude with creativeness and efficiency and applies that attitude to his employees and subcontractors. It is obvious that he is directing the show and assures the same level of quality from everyone that takes part in the project.

I wouldn't hesitate to contract with Jeremy again with any future projects and will surely recommend him to others.
