To Whom It May Concern:

We would like to recommend Freyenhagen Construction to anyone considering a remodeling or addition project.

We heard about Jeremy from a friend who was very satisfied with his work. Jeremy spent many hours helping us make the most of our space. He designed an addition to our home that perfectly blends what we had with what we wanted. We particularly love our big window view from the addition. Also, opening the stairwell was a great tie-in factor. Jeremy was very patient with our questions and concerns. We appreciated how he and his workers took care of our home. We had complete trust in everyone that was involved with our project.

The quality of the work and workers was excellent. Dan, Mike, Dave, etc. all gave great attention to detail. We love our hardwood floors. You were on time, always professional and very personable.

We feel that the most important service provided was the communications with Jeremy. Daily communication was available with a "mailbox" in our home. Our binder helped keep us aware of deadlines. Weekly meetings were important to us. We felt very involved with the process.

Thank you for an excellent job Jeremy.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jane M. Quass".
