Re: Basement Finishing

Jeremy:

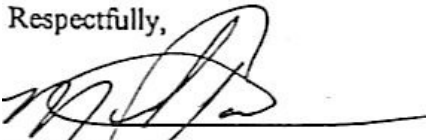

Just a quick note to let you know how much I enjoyed working with you on the finishing of my basement. I was concerned about the time frame I had in mind and, never having something like this done before, was generally nervous about how it's all done.

People always talk about the "nightmare" of building and remodeling. I certainly cannot say I understand. It was a pleasure with your crew. Everyone involved was friendly and professional and I was very comfortable with them being in my home, even in my absence.

The finished product is all I had hoped for. The work really was top notch.

Thank you for a great job, Jeremy, and you can be sure you'll here from me again.

Respectfully,

Mike Schmitt
