To whom it may concern-

We have had the pleasure of working with Freyenhagen construction during the extensive remodeling at our home in Billings, MT. The crew has always maintained a high level of professionalism, working diligently and completing the job in a timely manner. Their attention to the high-end detail we demanded in our "new" home reflected a commitment to craftsmanship and expertise rarely found in the industry. The pricing was extremely competitive; the designs met all our expectations. The final product is magnificent. Our project lasted several months and the intrusion into our daily lives was minimal.

We are continuing to use Freyenhagen construction in our next remodeling project and can wholeheartedly recommend their services for both the elegant remodel to the creation of a new residence.
