Dear Jeremy,

Carmen Leach, a realtor here in town, referred us to you. She said that you did great quality work. It turns out that she was right! Your organization is very responsible and professional. It was clear that you and your employees were interested in doing a good quality job.

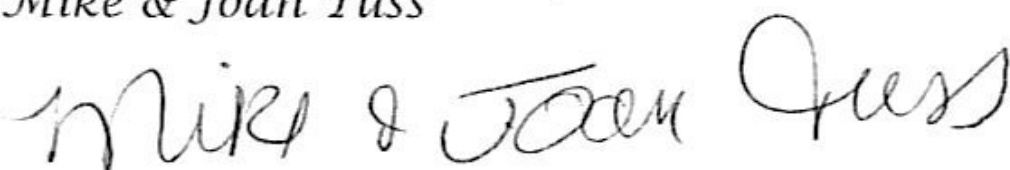

You were very "hands on" with the project. You met with us often to insure that the project was going smoothly. Dave, the carpenter that was assigned to our project, always wanted to do the best job possible. He didn't hurry through it, but spent time to get things right (especially on all the little picky things our attic entailed).

You always returned our phone calls promptly, which was appreciated.

We would recommend you and your crew to anyone considering a remodeling project.

Sincerely,

Mike & Joan Tuss
