

4/28/05

*To Whom it May Concern:*

*When we decided to have a room and bathroom finished in our basement we called three construction companies, including Freyenhagen Construction. We'd heard about them from an acquaintance. We decided on Freyenhagen as they were able to schedule the work when we needed it done, appeared very well organized and responsive.*

*My husband is an artist and wanted the room finished for that purpose. He wanted a utility sink installed as well as a bathroom next door. The bathroom was roughed in when we bought the house. There was space for a shower but we wanted a full bath with a tub. Jeremy Freyenhagen was able to solve this problem and found room for the bathtub in the plan.*

*The workers and subcontractors were conscientious and their work was of high quality. Jeremy provided good coordination and supervision so the project stayed on track and was finished on time.*

*We are very satisfied with the completed rooms and would recommend Freyenhagen Construction to any one wanting building or remodeling done.*

*Sincerely,*

*Jean Zankner*
